Global Fisheries Conference India 2023

Overview

Fisheries & aquaculture are important source of food, nutrition, employment, income and foreign exchange. The Indian fisheries & aquaculture is a promising sector that provides livelihood and employment to **more than 30 million fishers and fish farmers** at the primary level and too many more along the fisheries value chain.

With its highest ever fish production of 17.4 million MT during FY 2022-23, India is the 3rd largest fish-producing country in the world contributing to about 8% share in global fish production. The country is also 2nd largest aquaculture producer. During FY 2022-23, India exported fish and fish products valuing USD 8.09 billion. Major chunk of the export comprised of frozen shrimp with an export earning of USD 5.48 billion.

With the aim of **reaching out to various stakeholders involved in domestic and global fisheries and to build partnerships, foster collaborative efforts and promote Indian Fisheries sector**, the Department of Fisheries, Ministry of Fisheries, Animal Husbandry and Dairying, Government of India is organizing a **two-day Global Fisheries Conference India 2023** on the occasion of World Fisheries Day at Gujarat Science City, Ahmedabad, Gujarat with the theme **“Celebrating Fisheries and Aquaculture Wealth”**

With an unwavering commitment for persistent growth of this vital sector, the Global Fisheries Conference India 2023 offers a unique platform for various value chain players (fishers, fish farmers, FFPOs, SHGs, input suppliers, processors, marketers etc.), policymakers, researchers, academicians, sector experts and enthusiasts to chart out the course for the future. It will provide an opportunity to explore Research & Development opportunities and resolve challenges for shaping the fisheries landscape. Cumulatively, this event will delve into the intricacies of technological advancements in production, value chain, market dynamics and much more.

Be part of this transformative experience that not only celebrates the richness of our fishery resources but also lays the foundation for a prosperous and sustainable fisheries industry.

Why to Visit

The Global Fisheries Conference India 2023 promises an enriching blend of knowledge sharing, networking and actionable insight in fisheries & aquaculture and its way forward. Whether you're a seasoned professional, an aspiring entrepreneur or a passionate academician, this event offers something enthralling for everyone. Engage in thought-provoking discussions, get exposure to latest trends in fisheries and aquaculture and connect with industry leaders who are shaping the future of fisheries.

Panel discussions on R&D and business-related themes will provide a platform for the experts in the respective fields to discuss on specific topics and express their outlooks on challenges that provide valuable insights for the participating audience. The exhibition is organized to bring together players in fisheries & aquaculture sector for demonstrating their products/services, technology and creating brand awareness.

The event awaits your arrival as we embark on a journey to unlock the immense potential of the fisheries & aquaculture sector, learn about research/technologies in the sector, meet new people and build strong professional relationships with others in your field.

Mark your calendar for the conference and let's navigate the waters of innovation and growth together at the Global Fisheries Conference India 2023!

Conference Highlights

Global Fisheries Conference is organized at Gujarat Science City, Ahmedabad. The invitees to the event are Foreign Missions of country with of fisheries & aquaculture potential International Organizations including FAO, World Bank, IFAD, World Food Programme, etc., international key experts and State Governments & Union Territories along with fishers and fish farmers.

International Round Table:

International Round Table led by Hon'ble Union Minister and MOSs (MoFAH&D, GoI) with Foreign Missions different nation of fisheries & aquaculture potential and International Organizations etc.

Matsya Manthan-Technical Sessions

Theme-based sessions/panel discussions involving national and international researchers & academicians.

Session Topics:

- 1) Emerging Challenges and Opportunities in Inland Aquaculture
- 2) Coastal Aquaculture and Mariculture: Innovations and Best Practices
- 3) Deep Sea Fishing: Technology, Resources and Economics
- 4) Aquatic Animal Health Management and Emerging Transboundary Diseases
- 5) Sustainable Aqua feed: New and Emerging Technologies

Industry Connect Sessions

Theme-based sessions/panel discussions involving industry leaders and representatives of industry associations across the fisheries value chain.

Session Topics:

- 1) Role of Startups in Fisheries and Aquaculture
- 2) Involvement of Women in the Fisheries Value Chain (seaweed, pearl etc.)
- 3) Importance of Cold Chain in Fisheries Post-Harvest Management
- 4) Tapping Export Promotion Opportunities
- 5) Strengthening Fisheries Cooperatives and Extension Services

Exhibition

Showcasing and demonstrating technological and innovative activities in aquaculture and mariculture, ornamental fisheries, seaweed, RAS/Biofloc, processing units and cold chains, feed manufacturing units, start-ups. Stalls of research institutes, FFPOs/Cooperatives/Federations/SHGs, central and State fisheries organizations to showcase success stories, etc.

Government to Government (G2G), Business to Government (B2G), & Business to Business (B2B) Bilaterals

Facilitating Discussion on co-operation and collaboration in the fisheries and aquaculture sector amongst different stakeholders

Benefits

1. The Conference reaches out to different domestic and global fisheries sector stakeholders and build partnerships, foster collaborative efforts and promote the Indian Fisheries sector.
2. Technical and Industry Sessions will enable future goal setting for Research & Development, give insights on novel management practices in aquaculture and seafood industry, pave a road map for exploring untapped potential in the fisheries & aquaculture sector in a sustainable manner and also facilitate business pitches for entrepreneurs/start-ups.
3. The exhibition will provide an opportunity to showcase success stories of various central and state fisheries organizations, technology driven research ideas from institutes, market leaders, exporters showcasing their products and display of value added products developed.
4. G2G, B2G & B2B bilaterals will enable identification of potential areas of collaboration in the field of R&D, technology sharing, extension, training & capacity building, management regimes fostering development and promotion of international trade.
